Lahore, Pakistan

SUMMARY

I am a Professional Frontend Web Developer with extensive experience in crafting responsive and interactive web interfaces. My core expertise includes HTML, CSS, JavaScript, React, and jQuery. I aim to create clean, efficient code and excel at translating UI/UX designs into exceptional user experiences. I am dedicated to keeping abreast of modern frontend trends and consistently deliver high-quality, performance-optimized web applications

EDUCATION

BS Computer Science

Virtual University of Pakistan

09/2024 - Present

EXPERIENCE

Frontend web developer

Visqode

11/2024 - 07/2025

Visqode is a technology company specializing in building modern web and mobile solutions. The company focuses on delivering scalable, user-centric digital products using cutting-edge technologies, ensuring high performance and seamless user experiences.

- Developed responsive and interactive web interfaces using **React.js**, **Next.js**, and **Tailwind CSS**.
- Collaborated with designers to translate **Figma** prototypes into pixel-perfect UIs.
- Optimized page performance and reduced load times by implementing **lazy loading**, and **image optimization**.
- Integrated RESTful APIs to ensure smooth data flow between frontend and backend.
- Implemented reusable components and maintained scalable, modular code architecture.

STRENGTHS

Problem-Solving

Ability to quickly identify issues and implement effective solutions, whether it's debugging code or improving system performance.

Adaptability

Flexible in learning new technologies and tools, adapting to changing project requirements.

Collaboration

Proven experience working efficiently in cross-functional teams, communicating with clients, designers, and back-end developers to deliver cohesive solutions.

SKILLS

Next.js

React.js

JavaScript

CSS

Tailwindcss

jQuery

RECENT PROJECTS

Visqode

01/2025 - 01/1970 Dhaka, Bangladesh

https://visqode.netlify.app/

Detail: Visqode is a digital solutions agency website that showcases the company's expertise in web development, UI/UX design, mobile applications, and AI-driven products.

Tech Stack: Next.js + Tailwind

My Role:

- Developed the **Visqode** company website using **Next.js**, and **Tailwind CSS**.
- Translated design prototypes into a fully responsive and interactive user interface.
- Implemented animations and transitions to enhance user engagement and brand appeal.
- Optimized website performance, load times, and SEO for better visibility and speed.
- Ensured cross-browser compatibility and mobile responsiveness across all devices.
- Deployed and maintained the website on **Netlify**, ensuring smooth CI/CD integration.

Mana E Shopping Mart

10/2024 - 12/2024 Lahore, Pakistan

https://manaeshoppingmartllc.com/

Detail: A dynamic e-commerce platform showcasing the full product range of Mana E Shopping Mart, designed for seamless user experience and mobile-first access. The site features clear category navigation, promotional banners, and integrated shopping cart functionality, representing the brand's commitment to convenience, variety, and customer-centric online shopping.

Tech Stack: React.js + Parcel

My Role:

- Developed the e-commerce website using **React.js** and **Parcel**.
- Built and maintained reusable UI components for product listings, filters, and category navigation to improve development efficiency.
- Implemented shopping cart functionality, ensuring smooth user interactions and checkout flow.
- Optimized website performance using **Parcel**.
- Collaborated with designers and stakeholders to ensure the UI/UX aligned with the brand's identity and business goals.
- Deployed and maintained the website on **Hostinger**, including version control with **Git** and **Github** for smooth updates.
